

Dr. Girish .S.V

MBBS, MRCPCH (UK)

Neonatologist

10th September 2019

Malnutrition related health issues remain the major challenge in India. There is an immediate need to contribute for the improvement of the balanced '**Nutrition**', more so vulnerable groups. In trying to address this national bane, many philanthropic organizations are working with the Government to reach the needy. I am aware and delighted to know of one such attempt of providing **Multi Nutrient Supplement, named Sai Sure**, by Sri Sathya Sai Annapoorna Trust for rapid correction of under-nutrition in school children of weaker sections of society. The formulation of Multi Nutrient Supplement, SaiSure has right mix of all the micro nutrients. This multi nutrient powder being provided to schoolchildren mixed with milk, milk being provided by Government is a right step to begin with.

The scientifically derived multi nutrient supplement with calories, protein, vitamins, Iron, Calcium and trace elements (Iodine, zinc, copper and selenium) will improve the nutrient quotient of these children's daily nutritional requirement, which will have positive impact on growth and development.

I have reviewed the relevant medical documents of SaiSure for Children and I am pleased to recommend SaiSure for daily consumption of children which will help in enabling and ensuring balanced nutrition for growing children.

Best Wishes

Dr. Girish S.V. MBBS, MRCPCH (UK)
Consultant Neonatologist & Paediatrician
